Moments into memories. Photographs excites me. That is why I do what I do. The love, the passion, the outcome for the future. I love shooting on real film for its wonderful colors, textured grain, soft timelessness feeling and because I believe (especially over time) in quality over quantity.

I photographed my first wedding in 2008 and are specialized on weddings and portraits with studio north of Stockholm. I hold the Apprentice Diploma - Journeyman's Certificate and the Master's Letter in the Photography Profession, approved by the Swedish Crafts Council, member of Swedish Professional Photographers Association and is EP Quality certified by the Federation of European Photographers.
